PACIFIC?**

Vava'u, Kingdom of Tonga, South Pacific

GPS Coordinates of location: Lat: 18°41' 60 S Lon: 174°1' 60 W

Version 2023/1

Description of geographic area covered:

*The **Vava'u Island group in the Kingdom of Tonga** is a spectacular tropical island paradise in the Pacific Ocean. It has a year-round climate suitable for swimming, snorkelling, diving and sailing. Some islands are ringed by white sand beaches while others have tropical forests, sea-level caves, and dramatic limestone cliffs with breath-taking vistas.*

Remote and truly unspoiled, the waters around Vava'u are crystal clear with visibility exceeding 100 feet. Most of the islands are uninhabited, a few have villages, and a few have very small unique resorts with exceptional food. There is abundant sea life with over 100 species of colourful tropical fish, giant clams, manta rays, sea turtles, spinner dolphins, and July-October the Humpback whales! Truly a paradise with the only Polynesian Monarchy this is a truly remarkable place to explore.

Other useful information specific to this area:

- SPEED limit in the harbour 5 knot – and/or no WAKE. Be aware of wake for other yachts, swimmers, divers, fisherman turtles, whales! By order Marine and Ports Harbourmaster.
- Please consider the environment and follow MARPOL rules and go 12 nautical miles to dump septic waste.
- Please walk on the pavement/sidewalk – NOT the road, this is a LEFT side driving country, the roads, drivers and cars are not very good. If no sidewalk walk on the right side of the road (against traffic so you can see vehicles)
- Cover and clean any open wounds, flies carry staph bacteria. Stay out of the sea, especially the first 50 metres from shore.
- Beware of Alofi a tall Tongan hawker – flag maker/bread/ feasts etc. Rows a dinghy and rides a bike. Report any problems to the Police, or Ministry of Tourism. He does homemade flags from tshirt material, charges for everything he does and frequently exaggerates about services he offers. Cruises through town on a bicycle to show

Berthing Note:

You will be instructed to tie up to the main wharf on the west side, in front of a container, lined up with your bow towards the main shore. This area is fenced off from the rest of the wharf. Occasionally the fishing wharf has to be used – a fee is charged \$20, a receipt should be offered.

A dock hand will (should) direct you into position and assist with line-handling. It is advisable to sling your fenders horizontally to protect your vessel from the hard rubber wharf bumpers which are spaced well apart. Ferry dock schedule is subject to change, you will be told to move quickly if a domestic ferry comes in.
